Nexera™

With Brevant® seeds canola BreakThru hybrids, you get a step change in yield performance.

Top Brevant® seeds Nexera® canola hybrid with earlier maturity and improved harvestability.

B3904N represents a step change in the Brevant® seeds Nexera® portfolio. B3904N is the highest yielding Nexera hybrid in our lineup and offers improved pod shatter performance and earlier maturity. The plant type is smaller and more compact than other Nexera hybrids, offering growers better harvestability.
